CANDRA BAGUS AINUR ROCHMAN

081217971417 | abaguscandra@gmail.com | https://www.linkedin.com/in/candra-bagus-ar/
Surabaya, Jawa Timur, Indonesia

Informatics graduate from Universitas Negeri Surabaya with Cum Laude honors (GPA: 3.83/4.00). Experienced in Full-Stack Web Development (PHP, React.js), Android Development (Kotlin), as well as system architecture design and UI/UX prototyping (Figma). Demonstrates a solid track record in academic research, indexed journal publications, and structured software project management.

Education

Universitas Negeri Surabaya - **Surabaya, Indonesia** Apr 2022 - Sep 2026

Bachelor of Informatics / Computer Science, GPA: 3.83/4.00 (Cum Laude)

- Awarded PKM research grant for Social Humanities (PKM-RSH) as primary author.
- Primary author of academic papers on AI in education, published in SINTA 4 and an international journal.

Work & Project Experience

Stockify (Pesticide & Fertilizer Warehouse Management Web App) | Undergraduate Final Project - **Surabaya** Nov 2025 - Jun 2026

Full-Stack Developer & System Architect | Tech Stack: PHP, JavaScript, MySQL, Git

- Designed and built an end-to-end web-based Warehouse Management System (WMS) to digitize inventory tracking for an agricultural pesticide and fertilizer retail store.
- Developed the application using two distinct architectural patterns—Modular Monolith and Event-Driven Architecture—for empirical system testing.
- Conducted empirical comparative analysis to benchmark latency, scalability, and resource utilization, while designing relational database schemas and automated workflows for inbound/outbound stock recording and reporting.

GudangKu (Aplikasi Pergudangan UMKM) | Universitas Negeri Surabaya - **Kota Surabaya** Sep 2025 - Dec 2025

Project Manager | Academic Project (Software Engineering & Management)

- Led the planning and software development lifecycle of a web-based warehouse management application to streamline inventory operations for SMEs.
- Authored comprehensive technical documentation, including Requirements Definition Documents (RDD), Software Design Documents (SDD), and system architecture diagrams (UML, ERD, and Data Flow Diagrams).
- Designed relational database schemas and inventory workflows to optimize inbound, outbound, and inventory reporting processes.
- Coordinated cross-functional task allocation and streamlined integration between frontend (JavaScript) and backend (PHP) modules to ensure on-time delivery.

PT ORDO TEKNOLOGI KARYA - **Surabaya, Indonesia** Feb 2025 - Jul 2025

Internship as Front-end Web Developer

- Built responsive user interfaces and reusable components using React.js and JavaScript, significantly accelerating application development cycles.
- Reduced page load times through lazy loading and asset compression techniques while integrating backend APIs for real-time data synchronization.
- Performed unit and functional testing to identify and resolve over twenty bugs, supported by Git repository management to ensure code stability.

StockPred | Aplikasi Prediksi Saham dengan Teknologi Machine Learning - **Kota Surabaya** Sep 2024 - Dec 2024

Android Developer | Bangkit Academy

- Developed the StockPred mobile application utilizing machine learning to analyze and forecast stock trends, supporting informed investment decisions.
- Designed responsive user interfaces using Jetpack Compose and Figma with a focus on usability, while implementing Clean Architecture to maintain structured and efficient code.
- Integrated external APIs for stock market data and utilized Google Cloud Platform for backend operations to ensure secure and efficient data management.

Skill dan Penghargaan

- Modules Taken - Android Developer - [Bangkit 2024 Batch 2] Certificate - A284B4KY0895
- Certificate of Competence BNSP - Junior Web Programmer
- 1st Place – Flutter Fusion Competition 2026 (National Level)
- Hard Skills
  a. Programming Languages: PHP, JavaScript, Kotlin, Python, C++, SQL
  b. Frameworks & Libraries: React.js, Jetpack Compose, HTML5/CSS3
  c. Tools & Platforms: Git, MySQL, Google Cloud Platform (GCP), Figma
- Soft Skills : Integrity, Team Collaboration, Problem Solving, Analytical Thinking, Critical Thinking
